(54) Title: SYNTHETIC KERBS AND METHOD OF INSTALLATION

(57) Abstract: A plastics or rubber kerbstone (10) has a body which defines a flange (30) for assisting retention of the kerbstone (10), in use. A kerb race reinforcement structure (80) is also disclosed. The kerb race reinforcement structure (80) has a preformed body (82, 84) which defines a base (92) and a kerb carrying surface (86) displaced from the base so as to define a cavity between the base (92) and the carrying surface (86).
